Righting Canada's Wrongs

Righting Canada's Wrongs: The Sixties Scoop and the Stolen Lives of Indigenous Children

1st edition

By (author) Andrew Bomberry 🇨🇦, By (author) Teresa Edwards 🇨🇦

Apr 16, 2024 | Hardcover, Paper over boards | \$34.95 |

A breakdown of the Sixties Scoop explored through the systems that created it and the survivors whose stories of resilience led to change.

Starting in 1951, Indigenous children in Canada were taken by social welfare agencies from their families and placed in the care of non-Indigenous families. These children grew up without their birth families, cultural roots, and language. Many tried to run away and some died in the attempt. The taking of the children is known as the Sixties Scoop, though the policies and practices started before the 1960s and lasted long after. Today, Indigenous children are shockingly over-represented in the child welfare system across Canada.

Indigenous communities organized and fought back for their children. In 1985, an official government report condemned the practice.

In the 1990s, lawsuits were filed against the governments who had supported taking the children. In 2018 and 2019, Alberta, Saskatchewan and Manitoba apologized for their roles. In 2020, the Canadian government agreed to a settlement for survivors of the Scoop.

Through hundreds of photos and primary documents, readers meet many survivors of the Scoop. They learn how Indigenous communities fought back to save their children and won, and how Indigenous communities across Canada are working towards healing today.

This title is also available in immersion French: *La rafle des années 1960* (ISBN - 9781459419902).

Reviews

"*The Sixties Scoop and the Stolen Lives of Indigenous Children* embraces complexity in the history it tells, which is further enhanced by the inclusion of first-hand accounts from survivors of the Scoop. Their stories provide a plurality of experiences, adding additional nuance to the book... It is timely and well-researched, an excellent resource for teachers, librarians, and parents interested in educating young people about the harms these policies had – and continue to have – on Indigenous communities, as well as the continued overrepresentation of Indigenous children in care."

Righting Canada's Wrongs

Righting Canada's Wrongs: Inuit Relocations

Colonial Policies and Practices, Inuit Resilience and Resistance

By (author) Frank James Tester 🍁, By (author) Krista Ulujuk Zawadski 🍁

Nov 07, 2023 | Hardcover, Paper over boards | \$34.95 |

The mostly-untold story of how most Inuit families were involuntarily moved by the Canadian government to new, usually totally unsuitable, locations between the 1950s and 1990s. Covers the impact, aftermath, and the later apologies.

In a highly visual and appealing format for young readers, this book explores the many forced relocation of Inuit families and communities in the Canadian Arctic from the 1950s to the 1990s. Governments promoted and forced relocation based on misinformation and racist attitudes. These actions changed Inuit lives forever. This book documents the Inuit experience and the resilience and strength they displayed in the face of these measures. Years afterwards, there have been multiple apologies by the Canadian government for its actions, and some measure of restitution for the harms caused.

Included in the book are accounts of a community forced to move to the High Arctic where they found themselves with little food and almost no shelter, of children suddenly taken away from their families and communities to be transported to hospitals for treatment for tuberculosis, and of the notorious slaughter by RCMP officers of hundreds of sled dogs in Arctic settlements.

Though apologies have been made, Inuit in northern Canada still face conditions of inadequate housing, schools that fail to teach their language, and epidemics of infectious diseases like TB. Yet still, the Inuit have achieved a measure of self-government, control over resource development, while they enrich cultural life through music, film, art and literature.

This book enables readers to understand the colonialism and racism that remain embedded in Canadian society today, and the successful resistance of Inuit to assimilation and loss of cultural identity.

Like other volumes in the Righting Canada's Wrongs series, this book uses a variety of visuals, first-person accounts, short texts and extracts from documents to appeal to a wide range of young readers.

Canada's residential school system for Indigenous children is now recognized as a grievous historic wrong committed against First Nations, Métis and Inuit peoples. Through historical photographs, documents and first-person narratives from people who survived residential schools, this book offers an account of the injustice of this period in Canadian history. It documents how official racism was confronted and finally acknowledged.

In 1857, the Gradual Civilization Act was passed in Canada with the aim of assimilating Indigenous people. In 1879, Prime Minister Sir John A. Macdonald commissioned a report that led to residential schools across Canada. First Nations and Inuit children were taken from their families and sent to residential schools where they were dressed in uniforms, their hair was cut, they were forbidden to speak their native language and they were often subjected to physical and psychological abuse. The schools were run by churches and funded by the federal government.

The last federally funded residential school closed in 1996. The horrors that many children endured at residential schools did not go away. It took decades for people to speak out, but with the support of the Assembly of First Nations and Inuit organizations, former residential school students took the federal government and the churches to court.

"Visually, it's a wonderful book, organized by topic and time with pictures and blurbs, and it feels almost like a scrapbook, or a new travelling museum exhibit. Written by Melanie Florence, who is of Plains Cree and Scottish descent, this book does not allow the residential schools to be the first or the final word on Indigenous culture and life. It takes us into the vibrant life and culture before the schools, the horror and grief during, and it takes us to the other side."

Residential Schools: Righting Canada's Wrongs

The Devastating Impact on Canada's Indigenous Peoples and the Truth and Reconciliation Commission's Findings and Calls for Action

By (author) **Melanie Florence** 🇨🇦

Jul 15, 2021 | Paperback, Trade | \$29.95 |

Over more than 100 years, the Canadian government took 150,000 First Nations, Métis, and Inuit children from their families and placed them in residential schools. In these schools, young people were assigned a number, forced to wear European-style clothes, forbidden to speak their native language, required to work, and often subjected to physical and psychological abuse. If they tried to leave the schools to return to their families, they were captured by the RCMP and forced back. Run by churches, the schools were paid for by the federal government. The last residential school closed in 1996.

It took decades for people to speak out in public about the devastating impact of residential schools. School Survivors eventually came together and launched court actions against the federal government and the churches. In 2008 the Canadian government apologized for the historic wrongs committed by the residential school system. The survivors' lawsuits led to the Indian Residential Schools Settlement Agreement, the largest class-action settlement in Canadian history, and the establishment of the Truth and Reconciliation Commission. The Commission spent six years gathering testimony and discovering the facts about residential schools.

This book includes the text of the government's apology and summarizes the Truth and Reconciliation Commission's 94 Calls to Action, which offer the basis for a new relationship between the Canadian government, Indigenous people and non-Indigenous people.

This title is also available in immersion French: *Les pensionnats indiens* (ISBN - 9781459419667).
